

2009 HONDA CIVIC INTERIOR OPTIONS – 01.27.09

The Honda Civic offers three interior colors in cloth and two in leather depending on model and exterior paint color. Most of the exterior colors and models, as shown below, are only available in gray or black interior colors. These models utilize Gun Metal Gray Metallic colored instrument and radio panels. The remaining models use a Taupe/Brown colored instrument panel for Beige cloth or leather interiors.

NOTE: Rosen will only produce the Civic Navigation System in the Gun Metal Gray Metallic colored plastic.

EXTERIOR COLOR	INTERIOR COLOR OPTIONS BY MODEL				
	DX-VP	LX	LX-S	EX	EX-L
Alabaster Silver Metallic	Gray Fabric	Gray Fabric	Black Fabric	Gray Fabric	Gray Leather

Urban Titanium Metallic	N/A	Beige Fabric	Black Fabric	Beige Fabric	Beige Leather

The data shown in the above table was compiled from the Honda U.S. web site in January 2009. Data subject to change.

BEIGE INTERIORS OPTIONS

We feel the best way to handle Beige interior color matching is to order the main instrument panel from Honda in Gun Metal Gray Metallic (P/N: 77222-SNA-A01ZA) to match the Rosen Navigation System plastics. Since there are already 2 other colors present in the Civic interior this will at least match the area over the speedometer/instrument cluster to Rosen's Navigation system. Cost for this part is approximately \$40.00 + tax and you should allow a few days for it to arrive at your dealership. Make sure to account for this in your pricing to the dealer.
